Sno Cone Machine	\$100	\$0	\$0	\$100

Prices includes; professional installation by a TSSA amusement device mechanic, local delivery, trained operators, extension cords, cleaning and sterilizing the inflatable after your event and 5\$ million liability insurance.

Please provide a power source (regular 15 amp dedicated circuit) for each blower within 100' of set up area. If no power is available, we can bring generators.

For your convenience, we publicly post our prices. We will beat or match competitor's written quotes. Tax is additional.

For insurance and TSSA reasons, we must have at least one trained Runamok operator at all public events (schools, churches, public parks etc). You can provide volunteers to operate carnival games, dunk tank, concession machines and some inflatable rides etc. We will teach your volunteers the safety rules.
